

COMPANY PROFILE

Conmat Heavy Industries Private Limited (CHIPL), formerly known as KYB Conmat Private Limited, is a leading manufacturer of concrete equipment in India and a prominent player in the global construction equipment sector, engaged in Design, Development, Manufacturing and Sales of Batching plants, Paving machines, Transit mixers, Self-loading mixers, and Concrete pumps, recognized globally for their exceptional Quality and Performance.

The company started manufacturing Material Handling & Storage Systems in 2002 and diversified into Concrete Construction Equipment in 2009. Subsequently it entered into equity partnership with the KYB Corporation of Japan in 2013. In January 2025, Conmat Group of Industries made a significant step towards making India "Atmanirbhar Bharat" in true sense and acquired the shares held by KYB Corporation of Japan, attaining 100% ownership in the company.

CHIPL has a state-of-the-art R&D and manufacturing facility in Vadodara, producing advanced concrete equipment for the world. With its strong Workforce of over 800 people that includes 450 highly qualified professionals in addition to over 350 contractual workmen, and an extensive Network of over 200 Sales & Service Engineers, 14 Domestic and 4 International Dealers, the Company has manufactured & supplied 13000+ Machines to 30+ Countries and 5000+ customers across the Globe.

Our products have been successfully used in prestigious global projects, including the world's tallest Vrindavan Chandroda Temple in Mathura, Maffaru Airport in the Maldives, Kaleshwaram Lift Irrigation Project, Nepal's Heritage Dharahara Tower, Surat Diamond Bourse, Statue of Unity, Narmada Canal Project, Bullet Train project, and others. Notably, CHIPL's batching plants set a world record by delivering 6,000 cu. mtr of concrete in 24 hours for the NH-63 development.

It has earned prestigious industry accolades, including "Best Concrete Equipment Company" (2016, 2020, 2023) and "Sarvottam Manufacturer of Concrete Equipment"

The Company is now diversifying its business portfolio by expanding into the Earthmoving Equipment and Electrically Operated Infrastructure Machinery segments. Conmat has consistently been at the forefront of investing in green technologies, reinforcing its position as a forward-looking and environmentally responsible organization.

The company has announced a **major expansion** with a **new manufacturing facility** in Bongaigaon, Assam, set to be operational by 2027.
